Outlook and Strategy

Going into Q4 2025, we maintain a positive view in Greater China's equity markets and believe the current trend could continue due to five reasons: (1) The US Fed's 2025 rate cut has been announced, (2) The Chinese government's recent support is tilted toward the demand side, (3) China's 15th 5-year plan, (4) 1H 2025 upward earnings revision with bright spots and (5) Continued strong fund inflow supported by domestic institutional and retail investors while foreign investors have returned to China/Hong Kong equity markets.
