Manulife Global Preferred Income Feeder Fund

The Fund is a unit-paying balanced UITF structured as a feeder fund that aims to maximize total return by investing all or substantially all of its assets in a collective investment scheme (CIS), the Target Fund, that aims to provide income generation with potential long term capital appreciation. The Target Fund invests at least 70% of its net assets in preferred securities listed or traded on any regulated market in the world, which include preferred stocks and subordinated debt securities. The Target Fund may invest its remaining assets in other debt securities and cash and cash equivalent.

Why this Fund?

Income payout and long-term growth

Aims to provide regular income distribution and long-term capital growth.

High quality securities with favorable yields

Access to a portfolio of high quality securities with above average yields.

Low correlation

Preferred securities have historically exhibited low correlations relative to other popular asset classes, providing diversification benefit in different market environments.
