Manulife Global Semiconductor Opportunities Equity Feeder Fund

The world runs on chips. Now, your investments can, too.

The Fund is an equity UITF structured as a feeder fund that aims to maximize total return by investing all or substantially all of its assets in a collective investment scheme (CIS), the Target Fund. The Target Fund aims to achieve capital appreciation by investing primarily in equity and equity related securities of companies in the semiconductor and semiconductor-related industries, listed globally.

Why this Fund

Semiconductors power progress.

Chips are at the core of our phones, cars, smart devices, and the AI revolution transforming everyday life. The Manulife Global Semiconductor Opportunities Equity Feeder Fund opens the door to this trillion-dollar* growth story. Be part of the breakthroughs driving the next era of technology!

Captures opportunities: Spots the massive tech trends shaping tomorrow, including AI, 5G, smart devices, and self-driving vehicles.

Harvests growth: Taps into the long-term growth potential of the semiconductor sector, set to hit US\$1 trillion by 2030.

Innovates: Built to benefit from the AI and semiconductor wave.

Performs: Targets superior returns by focusing on companies driving the semiconductor space.

Start investing in your future, today.
